

War of Words...

War of words
Leads to war of swords
Brings the world to crossroads
Small is beautiful
But, big is powerful
Prosperity should not be oppressive
Poverty need not be submissive
We need a little barter
To start a new chapter
Where food and shelter is for everyone
Peace and happiness in every land
The Jews and the Christians
The Muslims and the Hindus
Should all come together
To make the world better
Let us stop this battle
Where men are getting killed like cattle
And make this world better for ever
